Life's Two Extremes.

- A waif of Life, an Infant fruit,
 Creation of an hour.
 Livid—passing like the transient gale—
 Mere blossom in a bower!
 It breathed upon its mother's breast,
 It smiled upon the skies;
 Lingered a week, of Earth the guest,
 Then entered Paradise,
 Soaring without a pang to bliss,
 Through portals thine, Necropolis!
 Sanex—Rive Lethe of the past—
- Through portais thine, Necropolis
 Senex—live Lethe of the past—
 Wrinkled, effote and lean;
 Baid—battered relict of Life's blast,
 Mere ghost of what hath been,
 At four-score years surrenders breat
 Grows cold as graveyard clod;
 Crosses the Rubicon of Desth,
 Dividing Man from God!
 The better lot, ah! who may guess—
 The first or second childishness?

The Pan-Anglican Synod

OPS AND CLOSING PROCEEDINGS

conference of Bishops of the Fan-Anglican communion recently held at Lambeth, England:

"Introduction.—We, Bishops of Christ's Holy Catholic Church, in visible communion with the united Church of England and Ireland, professing the faith delivered to us in Holy Scripture, maintained by the Primitive Church and by the fathers of the English Reformation, now assembled by the good providence of God, at the Archiepiscopal Palace of Lambeth, under the presidency of the Frimate of all England, desire: first, to give hearty thanks to Almighty God for having thus brought us together for common counsels and united worship; secondly, we desire to express the deep sorrow with which we view the divided condition of the fieck of Christ throughout the world; ardently longing for the fulfillment of the prayer of our Lord. "That all may be one, as Thou, Father, art in Me, and I in Thee, that they also may be one in us, that the world may believe that Thou has sent Me;" and, lastly, we do here solemnly record our conviction that unity will be most effectually promoted by maintaining the faith in its purity and integrity—as taught in the Holy Scriptures held by the Primitive Church, summed up in the Creeda, and affirmed by the indisputed General Councils—and by drawing each of us closer to our common Lord, by giving ourselves to much prayer and intercession, by the cultivation of a spirit of charity, and a love of the Lord's appearing.

Resolution 1—That it appears to us excedient. union recently held at Lambeth, England:

munion, that all cases of establishment of new sees and appointment of new Bishops be notified to all Archbishops and Metropolitans and all presiding Bishops of the Anglican Communion.

Resolution 2—That, having regard to the conditions under which intercommunion between members of the Church passing from one distant diocese to another may be duly maintained, we hereby declare it desirable: 1. That forms of letters commendatory on behalf of clergymen visiting other dioceses be drawn and agreed upon. 2. That forms of letters commendatory for lay members of the Church be in like manner prepared. 3. That his Grace the Lord Archbishop of Canterbury be pleased to undertake the preparation of such

Accounter 3—Inst a committee be appointed to draw up a pastoral address to all members of the Church of Christ in communion with the Angli-can branch of the Church Catholic, to be agreed upon by the assembled Bishops, and to be publish-ed as soon as possible after the last sitting of the

d as soon as possible to the common of this Conconference.

Resolution 4—That, in the opinion of this Constence, unity of faith and decipline will be best
naintained among the several branches of the Anplican Communion by due and canonical suborditation of the Synods of the several branches to
the higher authority of a Synod or Synods above

the higher authority of a Synod or Synods above them.

Resolution 5—That a committee of seven members (with power to add to their number, and to obtain the assistance of men learned in ecclesiastics and canon law) be appointed to inquire into and report upon the relations and functions of such Synods, and that such report be forwarded to His Grace the Lord Archbishop of Canterbury, with a request that, if possible, it may be communicated to any adjourned meeting of this Conference.

Resolution 6—That, in the judgment of the Bishops now assembled, the whole Anglican Communion is deeply injured by the present condition of the Church in Natal; and that a committee be now appaointed at this general meeting to report on the best mode by which the Church may be delivered from the continuance of this scandal, and the true faith maintained. That such report be forwarded to his Grace the Lord Archbishop of Canterbury, with the request that he will be pleased to transmit the same to all the Bishops of the Anglican Communion, and to ask for their judgment thereupon.

apon.

obuion 7.—That we are here present to acceed in the resolution of the Convocation If it be denied that a new Bishep should be consecrated—as to the proper steps to be taken by the members of the Church in the Province of Natal for obtaining a new Bishop, it is the opinion of this House—first, that a formal instrument, declaratory of the doctrine an 1 discipline of the Church of South Africa, should be prepared, which every Bishop, priest and deacon to be appointed to office should be required to subscribe; secondly, that a goldly and well-learned man should be chosen by the clergy, with the assent of the lay communicants of the Church; and thirdly, that he should be presented for consecration, either to the Archbishop of Canterbury—if the aforesaid instrument should declare the doctrine and discipline of Christ as received by the United Church of England and Ireland—or to the Bishops of the Church of South Africa, according as hereafter may be judged to be most advisable and convenient.

**Resolution 8—That in order to the binding of the

Resolution 8—That, in order to the binding of the Churches of our Colonial Empire and the missionary Churches beyond them in the closest union with the Mother Church, it is necessary that they receive and maintain without alteration the standard of the colonial colonial and the colonial col receive and maintain without alteration the standards of faith and doctrine as now in use in that Church. That, nevertheless, each province should have the right to make such adaptations and additions to the services of the Church as its peculiar circumstances may require: provided, that no change or addition be made inconsistent with the spirit and principles of the Book of Common Prayer, and that all such changes be liable to any revision by any Synod of the Anglican Communion in which the said province shall be represented.

nion in which the said province shall be represented.

Resolution 9.—That the committee appointed by resolution 5, with the addition of the names of the Bishops of London, St. David's and Oxford, and all the Colonial Bishops, be instructed to consider the constitution of a voluntary spritual tribunal, to which questions of dectrine may be carried by appeal from the tribunals for exercise of discipline in each province of the Colonial Church, and that rheir report be forwarded to his Grace and Lord Archbishop of Canterbury, who is requested to communicate it to an adjourned meeting of this Conference.

Resolution 10—That the resolutions submitted to this Conference relative to the discipline to be exercised by Metropolitans, the Court of Metropolitans, the scheme for conducting the election of Bishops, when not otherwise provided for, the declaration of submission to the regulation of the Synods, and the question of what legislation should be proposed for the Colonial Churches, be referred to the committee specified in the preceding resolution.

Resolution 11—That a special committee be ap-

to the committee specified in the preceding resolution.

Resolution 11—That a special committee be appointed to consider the resolutions relative to the notification of proposed Missionary Bushoprics, and the subordinates of Missionaries.

Resolution 12.—That the question of the bounds of the jurisdiction of different Bishops, when any question may have arisen in regard to them, the question as to the obedience of Chaplains of the United Church of England and Ireland on the Continent, and the resolution submitted to the Conference relative to their return and admission into home Dioceses, be referred to the Committee specified in the preceding resolution.

Resolution 13—That we desire to render our hearty thanks to Almighty God for His blessings youchsafed to us in and by this Conference; and we desire to express our hope that this our meeting may hereafter be followed by other meetings, to be conducted in the same spirit of brotherly lovs.

lovs.

After a resolution of hearty thanks to his Grace the Archbishop of Canterbury, for having convened the Conference and for having presided at it, the Archbishop solemniy offered up the prayer for the Church militant. The "Gloria in Excelsis" was then sung by the assembled Bishops; his Grace, the President, pronounced the benediction, and the present session of the Conference came to its close.

Tearing Down the Old Penitentiary Washington City. The Washington correspondent of the New York

The Washington correspondent of the New York Herald says:

The work of tearing down the old penitentiary of the District of Columbia goes on very slowly. The contractor engaged to pull down the old buildings for \$7000 and to have the work completed within three months, but for several days past there have been but six or eight men employed upon the work and a fair beeinning has searcely been made. The removal of these buildings will effectually obliterate all the objects associated with the trial, execution and burial of the assassination conspirators. It was for the purpose of demolishing these buildings that the remains of the conspirators were removed to another spot. The The grave which was filled by the body of Booth since his death still stands open, as it was left when the body was exhumed a few weeks ago. It is located in the corner of a large storeroom at the northern end of the penitentiary. The brick flooring was taken up, the body buried, the bricks replaced, the huge iron door was then locked and the key deposited in the War Department, and not a soul entered the dismal looking room from that time until the day the body was removed. The remains of the conspirators now lie buried in a large room at the northeast corner of warehouse No. 1 of the Arsenal buildings. The room is about thirty feet by fifty; the walls are lined with shelves containing ordnance stores, and on the floor are huge piles of boxes of small arm ammunition. The floor is composed of flagstones, and about the centre of the room an oblong space is marked, the four sides of which are indicated by a narrow white stripe, painted on the stones. Beneath the floor and the order named.

NEW ORLEANS, October 23.—Corron.—The inquiry was resumed, but in the face of discouraging accounts from Liverpool, and a private telegram reporting a more decided decline, several buyers stood aloof, and others came forward with lower offers. There was, at the same time, a manifest disposition on the part of factors to neet the demand more freely, at least for Middling and Low Middling. Good Ordinary and Ordinary, being in Lees ample supply, maintained their position better. Under these circumstance the sales summed up 1250 bales, at figures indicating a falling off of \$\phi\$ as \$\phi\$ on the latter qualities, but no change in the Ordinary grades, and we modify our quotations as follows: Ordinary, it a 169, Good Ordinary, it a 184c. Some authorities affirmed that Low Middling.— a 183c. Some authorities affirmed that Low Middling could be bought at 17c, but the lowest prices paid for any considerable amount was 17\(\pmi\). We make no change in the figures for Ordinary and Good Ordinary, but they shared the general weakness, although without any quotable variation.

From the Pells to the Dissecting Table.

There was a man named George Kehoe, the head of a family, who, on election day, left his domicile in West Philadelphia to electioner and to vote. He drank freely, and after a time lay upon the grass skuring the road near Hiddington, in the same ward. The policemen took him to the station-house, and as he was evidently verging on mania-a-potu. Alderman Maule sent him to the lived. His friends finally heard of his incarceration. He has very worthy relatives who had sought him in vain for several days. At the prison his friends were actonished at hearing that the man was dead. The only way the prison arthorities hewe of his identity was by naturalization. MANCHESTER.—Our market continues to follow Liverpool, and from week to week prices of goods and yarns show a decline of about equal to that in the raw material. The demand, however, is sufficient to prevent any accumulation of stock, and our producers continue ready sollers as opportunity offers.

Beraderupys.—A further general advance in prices has taken place throughout Europe, and there is a good deal of excitement in the trade; 85s per quarter and upwards is now paid for white wheat, a higher price than we have seen since the famine in 1847. Arrivals on the coast have been kept out by contrary winds; a good deal is consequently due, and great efforts are being made to bring grain from the Biack Ses, 15s per quarter freight being offered to steemers. Farmers' deliveries are increasing under the stimulus of high prices.

THE PHILADELPHIA UNIVERSITY OF MEDICINE
AND SURGERY was organized in 1848. Chartered
by the Legislature, February 26, 1853. Name changed
by a legislative enactment to the Eelectic heel ical College, of Philadelphia, in 1860. In 1863 it purchased the
Pennsylvania Medical College, established in 1342, and
the Philadelphia Medical College, which had previously
been merged into the Pennsylvania Medical College. In
1864 it purchased the Penn Medical University. The
Trustees of the separate schools united, peditioned and
obtained a special Act of the Legislature, consolidating
these institutions and charging their names to that of the
Philadelphia University of Medicine and Surgery,
March 15, 1885. All these various Acts are publiched in
the statutes of Pennsylvania. The cost of the luiding riniadepnia University of Medicine and Surgery, March 15, 1885. All these various Acts are publit hed in the statutes of Pennsylvania. The cost of the 1 uilding and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four Medicial Colleges that it has absorbed. It is a liberal school of medicine, con-

It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at any time, and receive his degree as soon as qualified.

In case a stucent should hold a scholarship and not be able to stand lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians or friends of students wishing to purchase scholarship for them a year or more before their attendance at the University, can secure them by advancing one-half the price and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men by presenting them a scholarship, and thus enabling them to obtain an honorable profession.

The Faculty embraces seventeen eminent physicians and surgical disease is operated on and treated in the presunce of the class.

COLLEGE BUILDING.—The College building, located in Ninth street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with enablitients and embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornaments and embrasures presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornaments by two towers, raing to the elevation of eighty feet, and crowned with an embattied parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience that modern improvement can contribute to facilitate medical instruction. Only-siye hundred and fifty are now gold, those who wish to secure one should do so at once. Money can be remitted by express, or a draft or check sent on any National Bank in the United States, when the scholarship will be returned by mall, signed by the Fresident of the Board of Trustees, JOEEPH S. TESTIMONIAL

SHEFFIELD SCIENTIFIC SCHOOL,

ENGINERAING DEPARTMENT,

YALE COLLEGE, November 16, 1866.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough trial of the American Polygrade Lead Pencils, manufactured by the American Lead Pencil Company, New York, I find them superior to any pencil in use, even to the Faber or the old English Cumberland Lead Pencil, being a superior pencil for sketching, ornamental and mothanical drawing, and all the ordinary uses of a lead pencil.

These pencils are very finely graded and have a very mooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.
